What was the greatest achievements of ancient greece

Minoans were the first advanced civilisation. They imported and exported to and from different countries. So the other countries probably wouldn't invade. The Minoans weren't really into fighting, they were more into trading. They made bronze swords and ceramics and they made their own language, that very complex. The Minoans didn't invest in a navy, despite being seafarers. Archaeologists found tablets with evidence, scripts and writing on.

In 490-492 BC King Darius wanted to expand his empire, so he invaded lots of cities and countries hoping they would just surrender, but Athens and Sparta didn't, but Athens and Sparta would never win on their own, so they joined ranks to defeat the Persians. At the battle of Marathon the Spartans were greatly outnumbered because the Persians had covered more land, so more people.
