Dear Mrs Field

Re: Dunvant Road, Killay, Swansea

I wanted to give you an update on our work to remediate the ground collapse on Dunvant Road, which you can share with the school community.

Our works to repair the ground collapse

As you know, we have been working to repair the road since 10 February to make sure this can be reopened as soon as possible.

Following unexpected issues, we hoped to be able to reopen the road by mid-September. However, due to concerns about the wall next to the final section of road, we have redesigned our treatment plans to ensure the work is carried out safely. This means we should be able to fully open the road by the middle of November. We're sorry for this further delay and we are working closely with our contractors and the Local Authority to meet this date.

We understand works of this nature can be disruptive and unsettling and we will continue to support the local community as the works progress. We will continue to do all we can to minimise disruption to residents by continuing to keep driveways accessible and ensuring that our work is conducted during normal working hours.

Making a better future for people
and the environment in mining areas

Keeping you informed

To keep residents informed, we continued to update our information page on our [website](#).

If you have any questions or concerns, you can contact our Customer Services team during normal office hours on customerservice@miningremediation.gov.uk or 0345 762 6848.

If you have any safety concerns outside of these hours, please contact our 24/7 hazard line on 0800 288 4242.

I hope this update has been useful. If you would like to discuss anything further, please let me know.

Yours sincerely

Michael Owens
Principal Project Manager
