

### School Sport Premium

At St John's, we value PE and sport as playing a vital role to pupils' all round development. For many years, we have had an excellent local reputation for achievement in PE and sport, with a cabinet full of trophies to prove it!

Once again, for the next academic year the government is providing Primary Schools with funding to develop PE and sport. For 2014/15 St John's have received School Sports Funding of £10,000 which has enabled us to continue to develop and extend PE provision both in school hours and for extra-curricular activities.

Following a teacher survey in September 2013, a proportion of the funding for 2014/15, like last year, is being spent on professional sports coaches teaching PE lessons and training our teachers. From the spring term, we are also going to be using these coaches to run enrichment groups across the school. This will enable us to expand on our ethos of promoting a healthy lifestyle, boosting self-confidence and developing valuable life skills, all with the children's enjoyment at the heart.

This funding is allowing us to expand on our equipment and resources as well as giving us the opportunity to attend even more competitions and fixtures outside of school, to continue our existing sporting and PE success. Long may it continue....
