

Fluency Facts
Target 4-4
To count in 25s to 1000.

By the end of this half term, you should know the following facts. The aim is to recall these facts **instantly**. You should also be familiar with using the key vocabulary.

Children should be able to count in 25s from zero.

Eg- 25,50,75,100,125,150,175,200

Key Vocabulary

Sequence
More than
Less than
Next

Children should be able to count in 25s

From any given multiple of 25

Eg- 275,300,325,350,375,400,425

Children should be able to say 25 more or 25 less than a number

Ask questions such as, “What is 25 more than 725?” “Say the next 3 numbers in this sequence... 75,100,.....,.....,.....

Top Tips!

- Practise little and often. Use your time wisely – could you practise on the way to school or while waiting in a queue at the supermarket?
- Use practical resources – use objects around you when you are first practising, such as lego bricks or even peas on your dinner plate! After practising with real objects, you will soon be able to picture them in your mind!
- Make a poster – either keep this sheet displayed somewhere where you will see it daily, or even better, make your own colourful poster of the facts for your bedroom wall or to go on the fridge.
- Make it fun – Learning your targets should be fun. Could you make it into a competition? Or go to www.conkermaths.org
- Revisit – You may think you know your target facts after one week, but if you don't practise regularly, you'll soon forget! Keep revisiting old facts regularly to keep them locked in your head!
