	me feel sad, worried, frightened online. Who are our trusted people?	with them and if something makes you feel uncomfortable to tell and show your trusted adult.		Talked through expected behaviours – kindness.	Discussed that we should be with a trusted adult when searching for online information to make sure we are viewing safe, correct things.		or writing our name on it.
YEAR 2	I can explain how other people may look and act differently online and offline. How can you change your appearance online?	I can explain why I have a right to say 'no' or 'I will have to ask someone'. I can explain who can help me if I feel under pressure to agree to something I am unsure about or don't want to do. Do friends sometimes ask you to do things which you might not like to do? What kinds of things might you be asked to do online or using technology which you might not like to do? How could you say 'no'?	I can explain how information put online about someone can last for a long time. How long do you think information stays online for? Can people share information about me without my knowledge? Ask how children would feel about having their pictures or photos shared on social media without giving their permission.	I can explain what bullying is, how people may bully others and how bullying can make someone feel. What is the difference between bullying and light teasing? What are the differences between bullying online and offline? Ask learners to consider the first three emotions they associate with online bullying. Take suggestions and discuss any similarity	I can use simple keywords in search engines. What is a website? What is a webpage? What are keywords and why are they important when searching online?	I can explain simple guidance for using technology in different environments and settings e.g. accessing online technologies in public places and the home environment. What happens to you when you've used technology for too long? Rules that you have at home/ school (or your ideas for rules) when using technology. Why do you think having that rule in place is important?	I can recognise that content on the internet may belong to other people. Describe why content on the internet may belong to others. How do you show someone that your work belongs to you? If someone's work isn't named, can you claim it as yours? Why/why not? If I made a copy of your work, would it now be my work? Explain that, although it is not always clear who
