Dear Parents and Carers

## Google Classroom

We are writing to inform you that the school will be using Google Classroom to support learning in lessons. Google Classroom is an online learning platform that allows teachers to share work, resources, and instructions with students in a simple and organised way.

Students will access Google Classroom using their school email account login details. Please note that while this login uses their school email address, students will not have access to email features. Email functions have been disabled, and the accounts are being used solely to allow access to Google Classroom.

At this stage, students will only use Google Classroom during lessons in school under staff supervision. It will be used to support activities such as:

- Accessing lesson resources
- Completing and submitting assignments
- Viewing teacher instructions and feedback

The platform will be used as part of our normal classroom teaching and will help students develop important digital skills that support learning and future education.

As with all school systems, students are expected to follow the school's acceptable use and behaviour policies when using Google Classroom. Staff will monitor its use to ensure it remains a safe and positive learning environment.

If you have any questions about the use of Google Classroom, please do not hesitate to contact the school.

Yours sincerely

Mr A Robinson  
Head of ICT
