1. Principles

The Board recognises as employer its overall responsibility for the health, safety and welfare of all employees, students and others who may be affected by using the Trusts premises or participating in school sponsored activities.

We regard the promotion of health and safety to be critical to our success and in supporting our aim "to provide a safe and healthy working and learning environment for students, staff and visitors". Therefore, we in so far as is reasonably practicable, comply with the requirements of the Health and Safety at Work Act 1974 and all statutory provisions associated with it and support staff in meeting their obligations under the Act. Health and safety management involves not eliminating all risks but controlling them to a level as low as reasonably practicable and maintaining that control.

This policy will be brought to the attention of all members of staff via all staff communication and briefings. A reference copy is displayed in all staff rooms.

This policy statement and the accompanying organisation and arrangements will be reviewed on an annual basis.
