Therapy Dog Policy

Written November 2022

Review: November 2025

Agreed by governors: December 2025

Next review November 2028

Introduction

Children can benefit educationally and emotionally, increase their understanding of responsibility and develop empathy and nurturing skills through contact with a suitable, calm dog. In addition to these benefits, children take great enjoyment from interaction with animals. By having a school dog we want to encourage those children who are vulnerable, or those less confident at reading to have a friendly audience and look forward to reading as a treat. The cross breed of a Cavapoo, is carefully selected as suitable for this type of environment. The school dog is well cared for and responsibly owned by Mrs Buckley (Class Teacher).

Is there a risk in bringing a dog into a school environment?

This policy shows that we have thought carefully about school life with a dog and how, through careful management, there is a very low risk of harm.

Context

- The school dog will be owned by a member of staff (Mrs Olivia Buckley)
- Veterinary costs will be covered by the owner
- The dogs are chosen for their very mild temperament and low to non-shedding coat. Both school therapy dogs are mostly hypoallergenic dogs.
- The risk assessment (attached) will be reviewed annually
- A sign will be displayed at reception, informing visitors that we have a school dog.
- A sign will be displayed to show when the dog is in a specific room in school

Management day-to-day.

The school dog will:

- Not be allowed in school if he is unwell
- Be kept on a lead when moving between classrooms or on a walk
- Be under the full control and supervision of an adult at all times
- Be fully trained to a crate or mat
- Be kept up to date with vaccinations
- Attend dog training

Pupils will:

- NOT have sole responsibility for, or be left alone with the dog
- Meet the dog in small groups
- Be reminded of what is appropriate behaviour around the dog every time they meet him
 - Always remain calm
 - Be gentle
 - Do not put your face near the dog's face
 - Do not disturb the dog if he is eating or sleeping
 - Always approach the dog standing up
 - Do not feed the dog
- Learn about how dogs express their feelings through their body language. Growling or bearing of teeth indicates that the dog feels threatened or angry. Flattened ears, tail lowered or between their legs, hiding behind their owner, whining or growling are signs that

the dog is frightened or nervous. If the dog is displaying any of these signs, he should immediately be removed from that particular situation or environment.

Health and Safety Principles

Children will always wash their hands or use alcohol gel after handling the dog.

Any dog foul will be cleared up immediately and disposed of appropriately by the adult in charge of the dog at the time. Children must never be allowed to do this.

Should a bite occur (even playfully):

1. Parents will be contacted immediately
2. The wound will be cleaned and covered with a sterile, non-sticky dressing
3. The child/adult will be released for medical attention
4. All staff will be informed
5. A full investigation will take place
6. The suitability of having a dog will be reassessed by the Headteacher.

Insurance

The school RPA insurance will cover will provide:

- an indemnity if the school is legally liable to pay compensation in the event of third party death/injury or third party property damage caused by an animal that is owned by or under the control of the school.
- Unless covered under a more specific pet insurance policy, the RPA will also provide an indemnity under the Third Party Liability section if an animal brought into school for educational or therapy/wellbeing reason, causes any third party property damage or injury to a third party (including pupils) to the extent that the school is legally liable to pay compensation or damages to the claimant.
- The Employers Liability section will provide an indemnity to the school if the school is legally liable to pay compensation to damages to an employee injured by an animal on school premises in the course of the employee's employment with the school.
- The RPA would not provide an indemnity to the individual owner of the animal for their legal liability.
- The RPA rules do not exclude damage to the school property caused by the animal but cover for Material Damage claims are subject to the member retention (excess) of £500 per loss reducing to £250 each and every loss for Nursery and Primary schools.
- To confirm the RPA would not compensate the school if an animal dies or is stolen, and will not provide cover for vet fees if the animal becomes ill or is injured therefore separate insurance would be required if needed.

Mrs Buckley has additional private insurance for the therapy dog.

This policy is reviewed annually by the School Business Manager, in consultation with the Head Teacher.

Risk Assessment Form

		LIKELIHOOD				
		VERY UNLIKELY	UNLIKELY	LIKELY	HIGHLY LIKELY	ALMOST CERTAIN
SEVERITY	NEGLIGIBLE	LOW	LOW	LOW	LOW	LOW
	MINOR	LOW	LOW	LOW	MEDIUM	MEDIUM
