## RIVERS

The

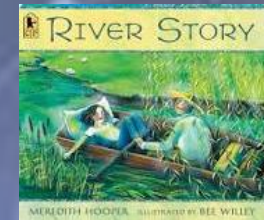

### Royal Charter

- 👑 Rivers collect the run off water from the precipitation (rain) and transport it back across the land.
- 👑 The source is a place where a river starts and a mouth is where a river flows into the sea.
- 👑 Erosion is a gradual destruction or wearing away of something.
- 👑 Rivers are used by power generation companies.
- 👑 Only 1% of all the world's water is usable by humans and some of that water has been polluted.

### Subject Specific Vocabulary

delta	A landform created by deposition of sediment that is carried by a river.
erosion	A gradual destruction or wearing away of something.
evaporation	The process of turning from liquid into vapour.
gorge	A narrow valley between hills or mountains, typically with steep rocky walls and a stream running through it.
levee	An embankment built to prevent the overflow of a river.
mouth	Part of a river where the river joins into another river, a lake, a reservoir, sea or an ocean.
precipitation	The action or process of causing a substance to be deposited in solid form from a solution.
reservoir	A large natural or artificial lake used as a source of water supply.
source	A place where a river starts and a mouth is where a river flows into the sea.
