

Calling all parents and carers!

Did you know as part of our new career ETF project we can also support you? If you want to get more information around the support your young person is receiving or feel you would benefit from some Careers Advice, you can either attend one of the parents sessions to find out more or contact our careers adviser!

Jamie, our dedicated careers adviser for this programme, is here to help you:

- get more career advice and guidance for your young person,
- support your young person to make decisions on their post-16 options
- get access to job and career advice and guidance, signposting you to programmes in your local area, such as Making a Difference and the National Careers Service.

If you're looking to have an informal chat with our careers adviser, please contact him on jstocks@educationdevelopmenttrust.com
