

Geography Home Learning Tasks

Year 8

Task 1:

Label the different layers of the earth.

Structure of the Earth

Label the diagram: Mantle, Inner Core, Outer Core, Crust.

Which part is the hottest?

Task 2:

Create an Earthquake Survival Kit.

Draw and label the things that you would include in an earthquake survival kit around the backpack.

Task 3:

Here is an example of a British coastline that has been affected by erosion.

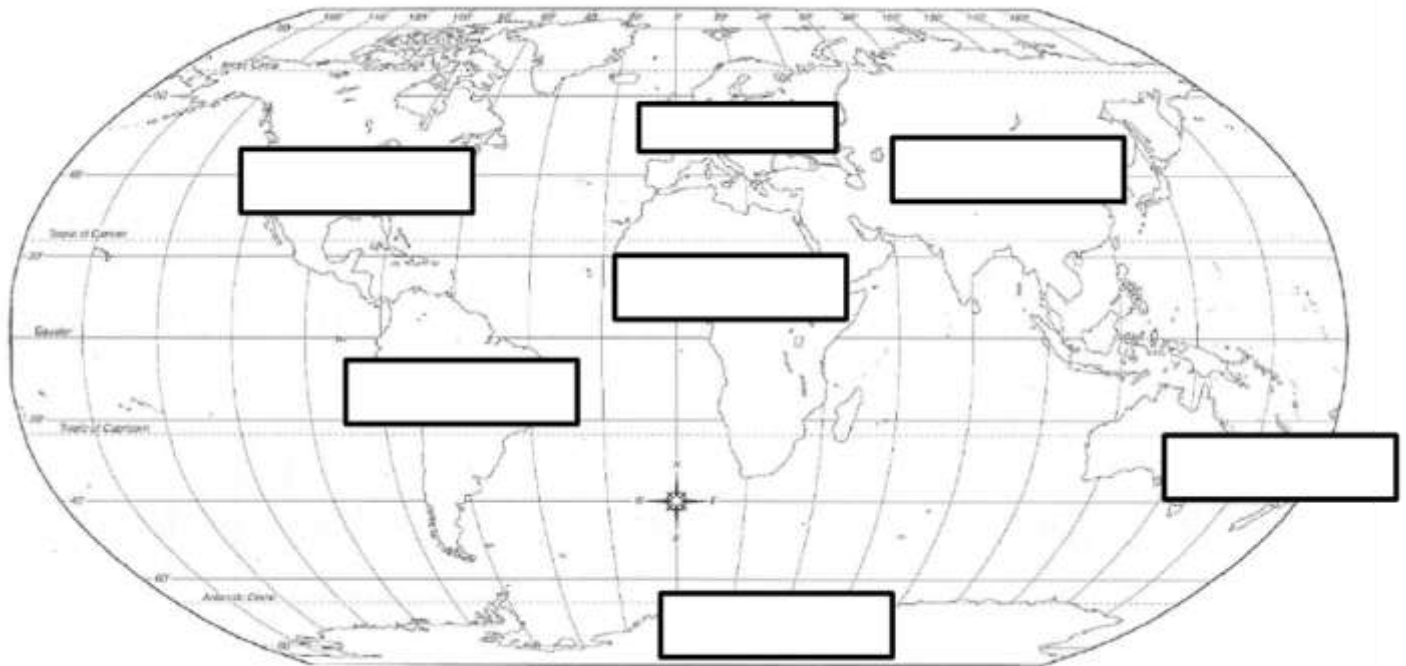

What do you think has caused this erosion?

What do you think will happen to the coastline and nearby houses in the next 100 years?

Task 4:

Label the continents on the map of the world.

Africa	North America
Antarctica	South America
Australia	Asia
Europe	

What continent do we live in?

Task 5:

Use the internet to research different types of biomes and their location.

Definition of a Biome

Different Types of Biome
