

Creating a computer game

Mr Robinson loves playing computer games. Some of his favourites include FIFA (football) and Mario Kart (Racing).

What are some of your favourites?

Can you name some of the following video game characters?

Create a Video Game Character

Character

Have a go at creating your own video game character. What character traits would they have? What would they look like?

| | | |
|------------------|---------------|---|
| Mission | Skills | Bio Name: Age: Description: |
| Equipment | Image | Attributes: Coordination ○ ○ ○ ○ ○ Strength ○ ○ ○ ○ ○ Ingenuity ○ ○ ○ ○ ○ ____ ○ ○ ○ ○ ○ ____ ○ ○ ○ ○ ○ |

In order to play your game you will need a controller. You will then need to program the character in order for him to move/jump/run/fight etc. Can you label the Xbox controller below and tell me what each button will make your character do?

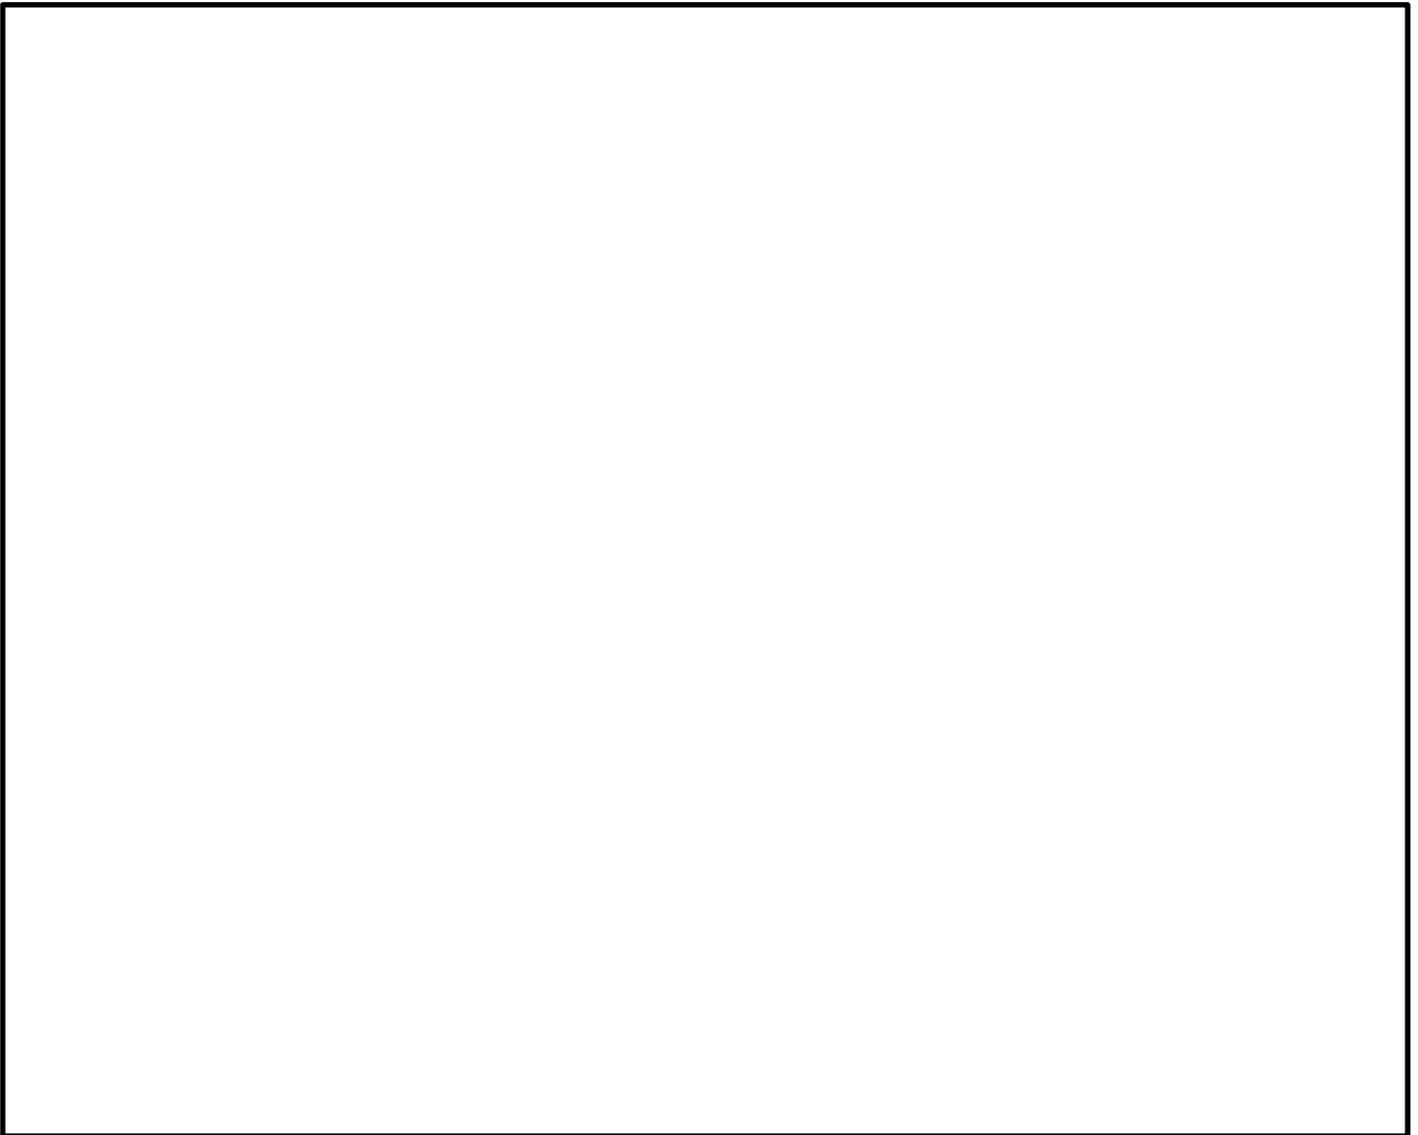

Game Advertising

One way to launch a new game and have lots of people notice it is by using a video advertisement on TV or the Internet (youTube).

You will need to include:

- *Price*
- *Where you can buy it*
- *What the game is about*

Sketch your advertisement below and label your plans:

A large, empty rectangular box with a black border, intended for students to sketch their game advertisement and label their plans.

Video Game Review

A lot of people will look at Video game reviews before deciding to buy one. Could you review a game of your choice or a pretend review for the the video game that you have created.
