Attainment and Achievement

Attainment and Achievement Summer 2026

Oaklands History of Student Progress Tracking

- 2015/ 2016 Oaklands began the transition from National curriculum levels to I Can statements of achievement for all subjects.
- Summer of 2016 – Key stage 2 end of year assessment changed for those students working below age-related expectations
- September 2016 –2021 leavers joined the school with attainment data in the form of Interim Pre-Key Stage standards. The Interim pre-key stage standards stayed in place for three years, and then they were replaced in 2019 by the pre-key stage standards following the Rochford review recommendations.
- We use the DFE's Secondary accountability document for guidance in measuring progress.

Reporting Progress in 2026

The cohort of 2026 joined Oaklands in 2021 during the COVID-19 pandemic. Due to the Pandemic, no Key Stage Two assessments took place during this year. In the absence of a national comparison, we have used a challenging flight path estimation for all students in English and Maths. To do this, we have been guided by previous national expectations and the guidance for students working below age-related expectations. This has enabled us to see the percentage of students meeting their flight path expectations in English and Maths. As a comparison for Science, we have also used the Mathematics flight path information to analyse the results.

Attainment and Achievement Summer 2026

Attainment

Summer results – Attainment and achievement

The following tables show the excellent results gained by Students in the Summer of 2026

Criteria	Percentage of Year Group 2023	Percentage of Year Group 2024	Percentage of Year Group 2025	Percentage of Year Group 2026
% 5 or more Entry Level or Above Qualifications	100%	100%	97%	88%
% 5 or more GCSEs or Level 1 Equivalent Qualifications	35%	39%	38%	34%

Attainment and Achievement Summer 2026

Progress in the Core Subjects

English

Progress From Key stage 2 to Key stage 4	2023 % of students achieving their flight path target level of qualification	2024 % of students achieving their flight path target level of qualification	2025 % of students achieving their flight path target level of qualification	2026 % of students achieving their flight path target level of qualification
Percentage of students meeting their flight path Qualification Level	74%	88%	88%	100%

The above figures do not include one student

Overview

Out of the 32 students – 18 students were entered for the examination in English Functional skills at Level 1 and 17 students passed

53% of all students gained a Level One qualification in English

19% of all students gained a Level Two qualification in English

Attainment and Achievement Summer 2026

Mathematics

Progress From Key stage 2 to Key stage 4	2023 % of students achieving their flight path target level of qualification	2024 % of students achieving their flight path target level of qualification	2025 % of students achieving their flight path target level of qualification	2026 % of students achieving their flight path target level of qualification
Percentage of students meeting their flight path Qualification Level	82%	94%	100%	100%

The above figures do not include one student

Overview

Out of the 32 students – 12 students were entered for the examination in GCSE mathematics, one student did not sit the exam but the other 11 students passed

20 students, 63%, gained a Level one qualification in Mathematics

Attainment and Achievement Summer 2026

Science

Progress From Key stage 2 to Key stage 4	2023 % of students achieving their flight path target level of qualification	2024 % of students achieving the mathematics flight path target level of qualification	2025 % of students achieving their flight path target level of qualification	2026 % of students achieving their flight path target level of qualification
Percentage of students meeting their flight path Qualification Level	88%	82%	91%	91%

The above figures do not include one student

Overview

Out of the 32 students – 12 students were entered for the examination in GCSE Science Double award and 11 students passed. One student did not take the exam.

69% of students gained a Level one qualification in Science, 34% Double award GCSE.

Attainment and Achievement Summer 2026

Subject Overview

The achievement figure includes all students on roll

Subject	Results 2026
English	94% Achievement 53% at L1 Flight path – 100%
Mathematics	94% Achievement 63% at GCSE or L1 Equivalent Flight Path – 100%
Science	97% Achievement 69% at GCSE or L1 Equivalent Flight Path – 91%
ICT	84% Achievement 34% at L1
Art	88% Achievement 50% at GCSE
RE	84% Achievement
Option Subjects	78 % of students achieved two option subjects
