How do we communicate at Sherdley Primary School?

Here at Sherdley we are **BIG** on communication, we understand and appreciate the value of communication between the school and our parents and carers.

To help us to communicate effectively there are three main apps and websites we use to send messages, gather information and receive payment for trips, clubs etc.

SchoolSpider

SchoolSpider can be downloaded from your Android or Apple App store. This is the App we primarily use for sending messages, surveys and information to parents and carers. Your username is usually your first name and surname without any spaces, however this along with your password will be confirmed to you.

SchoolGrid

SchoolGrid can be accessed at https://app.schoolgrid.co.uk/. This website is used to make your child's selection for their school lunch. You can order meals, check ingredient information and make payment online, with choices being able to be made up to 9am on the day.

Once we have your email address, you'll receive an email from SchoolGrid with instructions on how to log in and get started.

SchoolMoney

SchoolMoney can be accessed at https://login.eduspot.co.uk/public/portal/parent. This is the site we use to make bookings for BLAST (*before school and after school club*) and make payment for any trips, clubs etc.

Once we have your email address, you'll receive an email with your log in details.

Don't forget the School Website (https://www.sherdleyprimary.co.uk/) has lots of really useful information which you may also find helpful. Our Office Support team are always happy to help with any questions or queries you may have regarding your log in details, helping to access the App or any other general queries.
