

Effective phonics, done simply.

- Provides six levels of dynamic and engaging materials - bursting with daily planning, teaching PowerPoints, stories, games, plus so much more.
 - Covers all the statutory requirements outlined on the 2014 National Curriculum.
- Contains a full teaching programme - helping us to deliver continuity and consistency throughout EYFS and Key Stage 1.
 - Fully complements the DfES Letters and Sounds document
- Expertly developed to prepare children for the Statutory Year 1 Phonics Screening Test

Meet our phonics family

Familiar faces to support the learning journey.

Phonics teaching is such a vital building block for learning and we're here to help you achieve amazing results at every crucial stage.

Our wonderful Twinkl Phonics materials have been developed by our specialist teachers, then illustrated by our talented creative team to deliver a visually engaging phonics programme that children (and teachers) love.

Share the learning journey with our new Twinkl phonics family of familiar characters, including twins Kit and Sam. Together, you will take the children through the exciting reading and writing programme.

The Phonics Family appear through a series of beautifully written stories helping you teach those all-important letter sounds and words. These tales capture your class's attention and help give meaning, purpose and situational understanding to your phonics teaching.

The lesson plans use our 4 part teaching method...

Teach

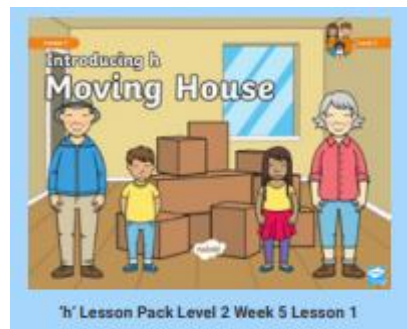

Practise

Apply

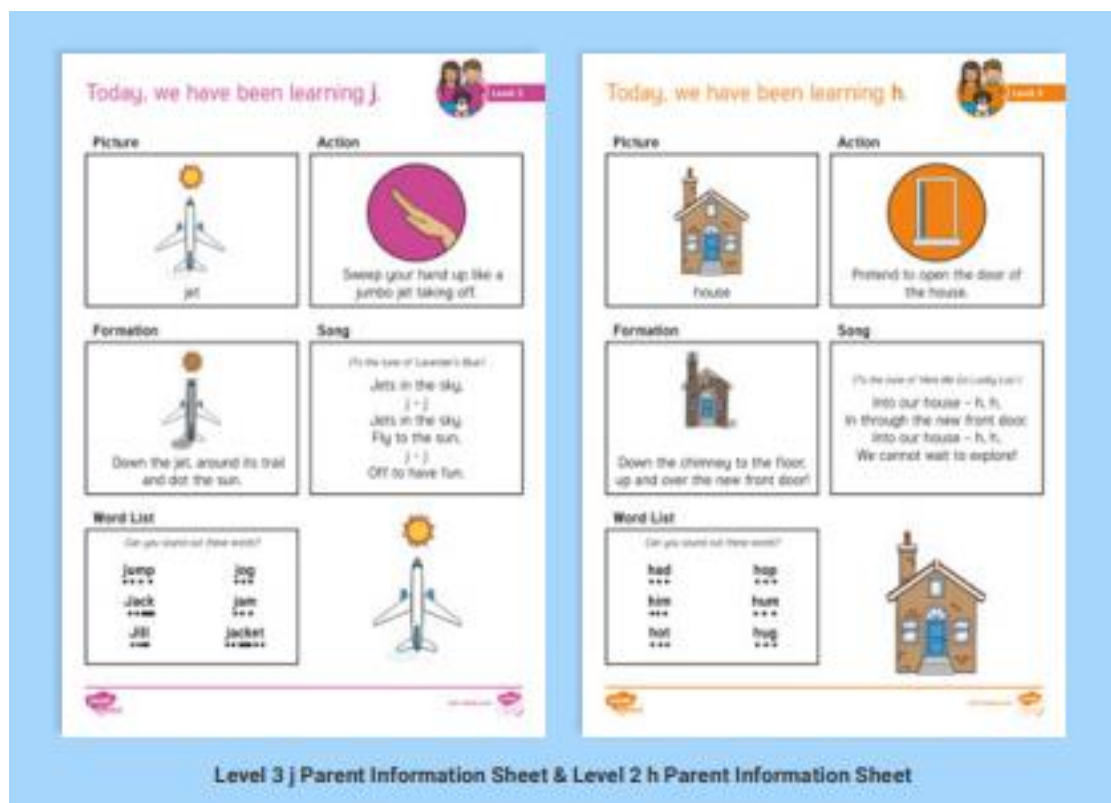

Assess

Daily sounds and words to be taught, are clearly shown, and build sequentially across the week. It's so straightforward!

Every day, a fabulous teaching PowerPoint will guide the children through the four part teaching sequence, taking the entire class on a journey into the phonics family's world. Creative and engaging features include songs, stories, letter formation, phoneme spotting, word/caption/ sentence reading and writing.

Everyday, a parent information sheet, will be uploaded to Tapestry, with the sound your child has been working on that day. These sheets include the visual aids, songs, letter formation and actions the children have been learning that day, as well as words to practise at home. On a Friday, Reading and Writing printable Minibooks will be uploaded to work on with your child at home. These wonderful and creative resources allow your child to apply their learning from the week, as they read and write their own book.

- ✓ Tricky and decodable words are colourcoded within the story text - **encouraging the children to join in**
- ✓ Learning comes to life as the children travel with the phonics family through a range of familiar and fantasy situations - **sharing an engaging and exciting reading and writing journey.**
