

Our Vision for Oracy at The Coppice

- At the Coppice, we believe that oracy is **central to learning**. It underpins **academic success**, supports **social** and **emotional development** and enhances our children's **life chances** and **choices**.
- We want our children to be **effective communicators** who can express their thoughts, feelings and ideas **confidently** and **articulately**.
- We want our school to be a place where **everyone's voice is heard**, where contributions are **valued** and where opinions are **respected**.
