

## **Geography intent:**

***'The study of geography is about more than just memorizing places on a map. It's about understanding the complexity of our world, appreciating the diversity of cultures that exists across continents. And in the end, it's about using all that knowledge to help bridge divides and bring people together.'***

***Barack Obama***

At Rydon, our geography curriculum is designed to develop children's curiosity and fascination about the world and its people. We aim to foster a desire to make a difference and protect our world for their future. We believe that by providing the children with geography knowledge and skills, it helps to provoke and provide answers to questions about the physical and human aspects of the world, as well as their place within it.
