

# Year 1: Senses Knowledge of Kings

Subject Specific Vocabulary	
<b>The five senses</b>	Our 5 senses help us notice the world around us: seeing, hearing, smelling, tasting and touching.
<b>Hear</b>	You use your ears to hear. For example singing, animals, the sea and music.
<b>Sight</b>	You use your eyes to see (sight). You can see your friends, family, pets, flowers and colours.
<b>Smell</b>	You use your nose to smell. You can smell food, perfume, flowers and places around you.
<b>Taste</b>	You use your tongue to taste. You can taste lot's of different types of food!
<b>Touch</b>	You use your hands to touch. You can touch toys, pens, people, playing equipment and food.
<b>Human body</b>	.The human body is made up of many different parts. Each part of the body has a specific job to do. Each part works together so we can eat, live, breathe, eat, dance and so much more!
<b>Healthy</b>	Being well, not sick or poorly. Showing good health. We can do lot's of different things to keep our body and minds healthy such as exercise.
<b>Bones</b>	Your bones make up the Skelton in our bodies! The smallest bone is in your ear!

An **optician** helps us take care of our eyes.

A **doctor** looks after our bodies when we are feeling unwell.

A **dentist** helps us take care of our teeth and gums.

## Exciting Books

**What we need to know by the end of the topic:**

- ✓ The names of the 5 senses.
- ✓ The parts of the body which are associated with each sense.
- ✓ How to identify, name, draw and label the basic parts of the human body that can be seen.
