

Fluency Facts

Target 3-6

I know my 2,5,10,3,4 and 8 times tables (revision target)

By now you should have learned your 2,5,10,3,4 and 8 times tables. This term you will need to make sure that you have super-quick recall of these facts and spend time revising those that you find tricky and improve your speed.

<u>x</u>	<u>2</u>	<u>5</u>	<u>10</u>	<u>3</u>	<u>4</u>	<u>8</u>
<u>0</u>	0	0	0	0	0	0
<u>1</u>	2	5	10	3	4	8
<u>2</u>	4	10	20	6	8	16
<u>3</u>	6	15	30	9	12	24
<u>4</u>	8	20	40	12	16	32
<u>5</u>	10	25	50	15	20	40
<u>6</u>	12	30	60	18	24	48
<u>7</u>	14	35	70	21	28	56
<u>8</u>	16	40	80	24	32	64
<u>9</u>	18	45	90	27	36	72
<u>10</u>	20	50	100	30	40	80
<u>11</u>	22	55	110	33	44	88
<u>12</u>	24	60	120	36	48	96

You should be able to answer these questions in any order, including missing box questions such as $8 \times \square = 56$.

Challenge- Can you use these facts to answer related facts eg- if $5 \times 3 = 15$ then $50 \times 3 = 150$

Top Tips!

- Practise little and often. Use your time wisely – could you practise on the way to school or while waiting in a queue at the supermarket?
- Use practical resources – use objects around you when you are first practising, such as lego bricks or even peas on your dinner plate! After practising with real objects, you will soon be able to picture them in your mind!
- Make a poster – either keep this sheet displayed somewhere where you will see it daily, or even better, make your own colourful poster of the facts for your bedroom wall or to go on the fridge.
- Make it fun – Learning your targets should be fun. Could you make it into a competition? Or go to www.conkermaths.org or use TT Rockstars and race against the clock!
- Revisit – You may think you know your target facts after one week, but if you don't practise regularly, you'll soon forget! Keep revisiting old facts regularly to keep them locked in your head!
