Policy Aim

At Colgate Primary School, online safety is a safeguarding issue, not just an ICT issue. Colgate Primary School recognises that many staff, governors, parents, carers and pupils use the internet for personal purposes and that they may participate in social networking on social media websites. Whilst staff, governors, parents and carers are free to use the internet in this way, they must ensure that they do not breach the law or disclose Colgate Primary School's confidential information, breach copyright, defame the school, its staff, governors, parents, carers and pupils. They must not disclose personal data or information about any individual that could breach the Data Protection Act. They should keep completely confidential, any information regarding the children, their families or other staff, which is learned through the school.

The purpose of this policy is to outline the responsibilities of staff, governors, parents and carers when using social networking websites.

This policy relates to material posted on public areas and those restricted to certain individuals.

SOCIAL MEDIA DEFINITION

Social media technologies take on many different forms including internet forums, social networks, podcasts, video and virtual game worlds.

IMPORTANT CONSIDERATIONS
