

Music intent:

***'Music gives a soul to the universe, wings to the mind,
flight to the imagination, and life to everything.'***

Plato

In music, children develop not only the knowledge and understanding of what music is and the skills needed within it, but a self-confidence and self-awareness of themselves and others that positively develops children across the school as a whole. They will understand and immerse themselves in the music around them, making sense of things they have seen and heard in the wider world.
