Attainment and Achievement

Attainment and Achievement Summer 2024

Oaklands History of student progress tracking

- 2015/ 2016 Oaklands began the transition from National curriculum levels to I Can statements of achievement for all subjects.
- Summer of 2016 – Key stage 2 end of year assessment changed for those students working below age-related expectations
- September 2016 –2021 leavers joined the school with attainment data in the form of Interim Pre-Key stage standards. The Interim pre-key stage standards stayed in place for three years, and then they were replaced in 2019 by the pre-key stage standards following the Rochford review recommendations.
- We use the DFE's Secondary accountability document for guidance in measuring progress.

Reporting Progress in 2024

In the absence of a national comparison, we have used a challenging flight path estimation for all students in English and Maths. To do this, we have been guided by previous national expectations and the guidance for students working below age-related expectations. This has enabled us to see the percentage of students meeting their flight path expectations in English and Maths. As a comparison for Science we have also used the Mathematics flight path information to analyse the results. No other subjects are formally assessed at Key stage 2, and therefore we are unable to do this calculation for other subjects. We will, however continue to monitor the progress in all subjects as detailed in our assessment policy.

Attainment and Achievement Summer 2024

Attainment

Summer results – Attainment and achievement

The following tables show the excellent results gained by Students in the Summer of 2024

Criteria	Percentage of Year Group 2021	Percentage of Year Group 2022	Percentage of Year Group 2023	Percentage of Year Group 2024
% 5 or more Entry Level or Above Qualifications	100%	100%	100%	100%
% 5 or more GCSEs or Level 1 Equivalent Qualifications	22%	27%	35%	39%
% Achieving at least 9 Qualifications	53%	97%	97%	67%

Attainment and Achievement Summer 2024

Progress in the Core Subjects

English

Progress From Key stage 2 to Key stage 4	2021 % of students achieving their flight path target level of qualification	2022 % of students achieving their flight path target level of qualification	2023 % of students achieving their flight path target level of qualification	2024 % of students achieving their flight path target level of qualification
Percentage of students meeting their flight path Qualification Level	97%	70%	74%	88%
Percentage of students surpassing their flight path Qualification Level	(No Examinations due to the pandemic)		8% - 3 students	6% - 2 students

Overview

Out of the 33 students – 23 students were entered for the examination in English Functional skills and 21 students passed (One student withdrawn by parent.)

64% of all students gained a Level One qualification in English

Every student gained an Entry level qualification in English

Attainment and Achievement Summer 2024

Mathematics

Progress From Key stage 2 to Key stage 4	2021 % of students achieving their flight path target level of qualification	2022 % of students achieving their flight path target level of qualification	2023 % of students achieving their flight path target level of qualification	2024 % of students achieving their flight path target level of qualification
Percentage of students meeting their flight path Qualification Level	88%	87%	82%	94%
Percentage of students surpassing their flight path Qualification Level	(No Examinations due to the pandemic)			3% - One student

Overview

Out of the 33 students – 12 students were entered for the examination in GCSE mathematics and 10 students passed (One student withdrawn by parent.)

76% of all students gained a Level One qualification in Mathematics

Every student gained a qualification in Mathematics

Attainment and Achievement Summer 2024

Science

Progress From Key stage 2 to Key stage 4	2021 % of students achieving their flight path target level of qualification	2022 % of students achieving their flight path target level of qualification	2023 % of students achieving the mathematics flight path target level of qualification	2024 % of students achieving their flight path target level of qualification
Percentage of students meeting their flight path Qualification Level	2021/2022 No progress analysis available for Science until 2025. A full cohort must go through for national analysis to be available		88%	82%
Percentage of students surpassing their flight path Qualification Level			15% - 5 students	3% - One student

Overview

Out of the 33 students – 11 students were entered for the examination in GCSE Science Double award and 10 students passed. One student was absent.

Every student gained an Entry level or a Level 1 award in Science

67% of students gained a Level one qualification in Science, 30% Double award GCSE.

Attainment and Achievement Summer 2024

Compaision with Pre-Pandemic data

Subject	Results 2019	Results 2024
English	93% Achievement 70% at L1 Flight Path – 70%	100% Achievement 64% at L1 Flight path – 88%
Mathematics	97% Achievement 53% at GCSE or L1 Equivalent Flight Path – 60%	100% Achievement 76% at GCSE or L1 Equivalent Flight Path – 94%
Science	97% Achievement 97% at GCSE or L1 40% Double Award GCSE Flight Path - 97%	100% Achievement 67% at GCSE or L1 Equivalent Flight Path – 82%
ICT	97% Achievement 43% at L1	97% Achievement 3% at L1
Art	80% Achievement 30% at GCSE	91% Achievement 48% at GCSE
