

# Remote Learning Guide

## Social Sciences

w.c. 29<sup>th</sup> June 2026

## What is the remote learning guide?

Where students are unable to attend school due to, medical, or disciplinary reasons we will continue to provide resources to enable students to continue their education at home – we call this remote learning. We want to minimise the impact to your child's education and therefore we have a plan to make sure learning can continue when they are unable to attend school.

We will be providing all teaching resources through Microsoft Teams. All students will be automatically placed in a Team for their classes in all subjects. Teachers will place all activities, including lessons and resources as files in these Teams. Pupils can access the Teams through their school email accounts. Teachers will also set homework and send messages to their pupils using MS Teams. All work will be available before the lesson is due to start.

You can see a summary of what is being taught each week through the remote learning guides that are shared on the school website every Friday. The guides are also shared with students on their year group's MS Teams. Your child's teachers will also be available via email to answer any questions or queries your child may have. The email address for the head of each department is also included within this guide if you need to contact them regarding any subject related issue.

Pupils are also regularly set tasks and can access resources using the following platforms:

- **GCSEPod** - <https://www.gcsepod.com/>
- **Bedrock learning** - <https://bedrocklearning.org/>
- **Seneca** - <https://senecalearning.com/en-GB/>
- **UpLearn** - [www.uplearn.co.uk](http://www.uplearn.co.uk)
- **Sparx Maths** - <https://sparxmaths.com/>

The following resources provide lessons created by the BBC and Department for Education that may be used with your children to extend their learning at school.

- **Oak National Academy** - <https://www.thenational.academy/>
- **BBC Bitesize Daily Lessons** - <https://www.bbc.co.uk/bitesize/dailylessons>

Studies show that reading for pleasure makes a big difference to children's educational performance. We recognise that reading is vitally important to your child's education. Please make sure your child reads approximately one book a week. Students may access online news resources using The Day - <https://theday.co.uk/> or they may borrow a book from the school library.

***Students record the passwords for these online resources in their school planner. If your child is unable to access the digital resources set by their teachers, please contact your child's Year Manager or Year Coordinator or the school directly using this email address: [enquiry@holte.bham.sch.uk](mailto:enquiry@holte.bham.sch.uk)***

### Personal Growth and Wellbeing

**Head of Department:** Mrs S Jafar [s.jafar@holte.bham.sch.uk](mailto:s.jafar@holte.bham.sch.uk)

**What is your child learning this term?**

**Unit 1: Maintaining Physical Health and Wellbeing**

In this unit, you will learn what a healthy lifestyle means and why it is important. Living healthily can improve your overall wellbeing by boosting your mood, helping you build positive social relationships and supporting your emotional health. Research also shows that following healthy habits can reduce the risk of long-term illnesses such as diabetes, cancer and heart disease. However, many people do not maintain a healthy lifestyle simply because they do not fully understand its importance.

During the unit, you will explore what counts as a healthy lifestyle, the benefits of making healthy choices and the risks that come with unhealthy behaviours. You will also look closely at your own lifestyle and assess how healthy it is by comparing it with national health guidance. Finally, you will create a personal improvement plan, setting goals and identifying the changes you can make to lead a healthier life.
