Top Tips

- *The key to success is practising little and often.
- *Talk about time and discuss when things happen: when do you wake up? What time do you eat breakfast? What time does school finish?
- *make sure you have an analogue clock visible in your house or that your child wears a watch with hands
- *Ask your child the time at o'clock and half past times. Give them responsibility for watching the clock: "We need to leave the house at half past eight."
