

Our Themes for Summer Term 2027 in Nursery are:

People who help us in the Community and Insects

RE:

This term our focus will be on Mary in May. We will celebrate key feasts, The Ascension, Pentecost, the coming of the Holy Spirit and the Feast of Sacred Heart. We will discuss how the church is where we gather together to worship, pray and sing as a community. Children will become more familiar with Jesus' closest friends, such as St Peter and St Paul, together with other saints related to the school. The children will continue to play an active part in our daily Collective Worship, reciting the prayers they have learnt.

RSHE:

Created to Love Others - Created to Live in the Community

We will be discussing how God wants to keep us safe, both in body and spirit. Children will be introduced to the concept of the Trinity, where God is three-in-one and each part loves the other. We will explore the children's relationship with the wider world, and understand that God calls us to love others in the wider community. We will learn about the responsibilities we have to people, places and the planet now. The working world of jobs will be explored.

COMMUNICATION, LANGUAGE AND LITERACY:

Circle Time - Children are encouraged to communicate their ideas and thoughts about what they are learning, in both small groups or to the whole class.

Little Wandle Phonics - We continue to learn new sounds through a range of games which include identifying the initial sounds of items, oral blending and creating sentences.

Writing - We will focus on children writing their names independently, practising letter formation.

PERSONAL, SOCIAL AND EMOTIONAL DEVELOPMENT.

Children will continue to develop a sense of responsibility and membership of a community. Children will be encouraged to express how they are feeling, using their words, as well as be aware of others feelings. Children will be increasingly independent as they fasten their coat zips, as well as continue to meet their own care needs with toileting, and keeping healthy. Children will be encouraged to extend their play ideas with friends and find solutions to differences of opinions through talk.

Maths: Numbers and Number Patterns

Children will be solving mathematical problems with numbers up to 5, experimenting with symbols, marks and numerals and comparing amounts. They will have experiences in comparing length, size and capacity. We will be exploring key vocabulary with these concepts.

PHYSICAL DEVELOPMENT

Fine motor skills development.

Children will continue with their daily fine motor activities.

They will experience threading, mark making, scissor skills, pouring etc., and using tools e.g.: tweezers, pipettes.

Gross motor skills development.

Children will have a weekly PE lesson developing their co-ordination, balance, control and agility.

Children will experience climbing, riding tricycles, moving in different ways, throwing and catching, rolling, balancing, jumping and group games.

Understanding of the World:

This term we will be study:

People who help us in the community -their occupation and responsibilities.

Insects - Learning about their features and habitats. An insect hands on experience.
