

## KIRF: I know number bonds to 5

Number bonds show us how numbers join together. They are very important for addition and subtraction. This half term, the children will be learning number bonds that make 5; they should be able to recall these independently.

### What can this look like?

#### Concrete:

#### Pictorial:

#### Abstract:

2 and 3 make 5

$$2 + 3 = 5$$

$$5 - 2 = 3$$

### Questions to ask at home

What do we need to **add** to 4 to make 5?

If I have 1, how **many more** do I need to get to 5?

What is the **difference** between 5 and 3?

### Key vocabulary

What is 3 **add** 2?

What is 4 **plus** 1?

What is 5 **take away** 4?

What is 1 **less than** 5?

### Things to try

**Everyday Objects-** Gather together 5 objects and separate them in as many different ways as possible, write the calculation to match each one.

**Bubble numbers-** Write the numbers 1-5 on large pieces of paper, shout out a number 1-6 and then ask your child to blow bubbles at the right number to make 5.

**Bunny ears-** Decide on a number to make. Put your hands on your head as 'ears' and challenge your child to make 5, e.g. show two fingers on one hand and 3 on the other.
