

## Key Vocabulary

Key Word	Definition
Music Technology	Using electrical methods to compose and/or produce music.
Delay	A repeat of the same sound.
Reverb	Extends the sound played. Adds warmth to a sound.
Pitch Bend / Shifting	An effect used to smoothly raise or lower the pitch of a sound.
Vocoder	Alters the voice. You can sound like a robot, alien or chipmunk!
Multi-tracking	Recording lots of different layers that build that can be played back together.
Overdubbing	Recording over the top of a pre-recorded track.

## UKS2 Cycle A

### 5.3 How has the development of technology changed music?

## Learning Sequence

Add your children's end of email log in so that they know their log in details for band lab.

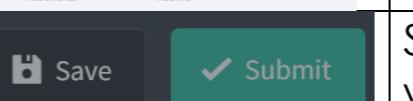

All ch should have the same bandlab password – add that here too.
