

The Sequence of Learning:

Spanish

Our curriculum is designed to foster pupils' curiosity and love of language learning and to develop an awareness and appreciation of other cultures around them. Spanish is taught in a fun, active and engaging way, which enables them to develop a firm understanding of the language, giving them the confidence to use and present their language skills to a range of audiences. Our teaching programme immerses children in the Spanish language and Hispanic culture, enabling them to make substantial progress throughout their time at Blean and laying the foundations for them to become lifelong language learners. Through authentic spoken and written language models, pupils are able to communicate for practical purposes, express their ideas and thoughts in another language and to understand and respond to its speakers, both in speech and in writing.

Formative assessment is used throughout lessons through observation, questioning, paired work and ongoing vocabulary checks. Summative assessment takes place at the end of units using consistent progression criteria linked directly to the KPIs for each year group. This structured approach will ensure clear skill development across all four language-learning strands and support targeted next steps for learners.

Grammar teaching develops through a clearer spiral model, ensuring concepts are revisited and built upon from Year 3 to Year 6. Key structures such as noun–adjective agreement, question formation, and verb conjugation, including high-frequency verbs in the present tense, will be introduced earlier and revisited more frequently. This approach supports greater fluency, builds confidence in manipulating language and prepares pupils more effectively for written and spoken tasks in upper KS2 and KS3.
