

# Kingsclere CE Primary School – Early Years Foundation Stage (EYFS)

## Good Level of Development Results (GLD) 2025

In 2025, results for our Early Years Foundation Stage children show that 83.3% achieved GLD (Good Level of Development) which is above local and national averages. Our school improvement plan for this academic year is to continue to build on the good practice in Early Years provision and ensure Early Years practices in place support the specific needs of the new cohort.

Kingsclere CE Primary School are above National and Hampshire standards year on year. This last academic year, Kingsclere CE Primary School is presently 11.4% above Hampshire's average and 15% above National average.

Each year we carry out moderation processes to support our judgements. In 2023, we commissioned Hampshire County Council's Early Years District Advisor to audit EYFS which included moderation of our 2023 results.
