

## EYFS

At Belvoirdale we strive to provide the best start for your children with interesting topics that both excite your children's interests and provide your child with a rich vocabulary. We have an interactive phonics scheme that is both fast moving and interactive with daily lessons, weekly application, and revision sessions. We work closely with parents to ensure that children are happy and that learning opportunities are continued across school and home. We provide 'song of sounds' phonics books for children to practice their phonics, reading books suited to your child's reading and phonics ability along with cross-curricular homework to reinforce what is learnt within the classroom. Throughout the year, we also provide opportunities for parents and grandparents to come and be part of our learning adventure during our Knowledge Harvests and FAB Finishes. We are passionate about providing an enriching indoor and outdoor environment for our children to enhance their learning along with weekly opportunities to learn in our fantastic Forest School. The team here at Belvoirdale are friendly and have your child's best interests at heart, providing an open-door policy that allows you to chat to a member of staff during drop off or pick up.
