

Maths at Belvoirdale

Our maths curriculum inspires and provides opportunities for all children to gain essential maths skills to prepare for their future. The curriculum creates curiosity and resilient pupils, who are confident mathematicians.

At Belvoirdale, we have sequenced our curriculum to build children's depth of understanding when teaching each mathematical skill. At the beginning of a maths lesson, our children consolidate prior knowledge with 'flashbacks'. We revisit CORE maths statements to develop children's understanding of key skills and then build on these skills to develop 'breadth and depth' of understanding.

We use Times Tables Rockstars and Numbots to help improve our number skills.

<p>Use a broad maths vocabulary</p> <p>Make links and spot patterns</p> <p>Understand how maths is used in everyday life</p>  <p>Be confident mathematicians</p> <p>Investigate and ask questions</p> <p>Choose appropriate methods and equipment</p>	<p>Fluency</p> <p>Reasoning</p> <p>Problem Solving</p> <p>Concrete</p> <p>Pictorial</p> <p>Abstract</p>
