

My Maths

We will be continuing to use My Maths to support our in class and at home learning.

Reading

Try to read every day with an adult to build your skills. Remember to practise your phonics and word packs daily. We will be continuing to use Reading Eggs to support home learning.

Visit

We will be visited by 'History off the page' in June. Further details and information to be sent out closer to the time.

Assembly

A year group assembly will take place this term.

Dates

Please check the weekly newsletter for up coming dates and key information.

Summer Term Learning

Year 1

English

In English, we will continue to develop children's reading and writing skills. During the first half term, we will be using the book, Emma Jane's Aeroplane by Katie Haworth, as a focus for learning these skills. We will be writing non-chronological reports for different countries and learn how to be authors. We will also be reading and writing non-fiction texts to support our learning about the world around us.

Science

We will be looking at the seasonal changes that happen as spring turns into summer. We will be learning to sort animals into their different groups including fish, amphibians, reptiles, birds and mammals and begin to identify which are carnivores, herbivores and omnivores.

Maths

In Maths, we will be continuing to build on our addition and subtraction skills, as well as introducing multiplication and division. We will also be learning about fractions, time and money.

History

We will be learning about the lives of great explorers and adventurers of the world including Captain James Cook, Captain Scott, Christopher Columbus, the Wright Brothers and Amelia Earhart. We will discuss why they are significant individuals. We will plot their exploits on a timeline and use historical vocabulary relating to the passage of time. We will identify the ways in which the past is represented (e.g. photographs/ paintings) and compare life then and now.

Geography

We will continue to learn to name the world's seven continents and five oceans. We will name them and locate them using Google Earth, globes and maps. We will focus on a country from each continent and begin to discover how people and their cultures are different around the world.

Art and Design

We will be developing our skills of drawing and collage.

Music

We will be learning and performing a range of songs, using our voices in different ways and learning about pulse, pitch, rhythm and tempo.

Computing

In computing, we will be improving our digital literacy by logging on and using programmes safely through coding.

Physical Education

In PE, we will be working on our creativity and shape work in Dance for our indoor PE. In outdoor PE, we will be improving our running, jumping and coordination skills. We will also be learning multi-skills and circuits.
