

ELEPHANTS

English

This term we will be reading Jumanji, by Chris Van Allsburg. We will be perfecting our recount writing skills, learning how to use more specific expanded nouns to describe and subordinate clauses. Finally, we will be writing our own sequel.

Maths

In Maths, after finishing our unit on addition and subtraction, we will then move on to study multiplication and division where we will begin by looking at equal groups and arrays before moving on to study division through sharing and grouping.

Computing

We will learn that the internet is a network of networks which need to be kept secure. We will have opportunities to explore the World Wide Web and evaluate online content.

Geography

In Geography, we will learn what living sustainably means; focusing on both renewable and non-renewable resources, such as electricity and how creating new habitats for birds is an example of sustainable development.

Welcome to Autumn 2 in the Elephants Class!

We have had an amazing start to the new school year and our Year 3/4 Elephant children have enjoyed their learning so far!

All of the adults that work with the Elephants have enjoyed getting to know the children and we have been impressed with both their enthusiasm and attitude to learning in all areas of the curriculum.

PE days: The Elephants will be doing PE on a Wednesday where they will be taught dance in the mornings and invasion games in the afternoons.

Library Slot: Friday

Science

Our Science unit this term is 'States of Matter'. Through this topic, we will explore changes in state of solids, liquids and gases, and partake in several investigations including measuring the effect that changes in temperature have on a solid (melting) and the evaporation of a liquid.

French

In French we will be learning to retell Little Red Riding Hood which brings together some of our learning so far.

AUTUMN 2

PE

After finishing our unit on striking and fielding, we will begin to develop our tactical skills through the use of invasion games. We will also begin dance lessons with an external dance teacher.

RE

In R.E, we will continue the term by seeking answers to our big topic question; 'How do festivals and worship show what matters to Muslims?'

DT

As part of our unit on textiles, we will be making money containers where we will design and create a fabric container using our sewing skills.

PSHE

In our PSHE lessons, we will look at our own and others' identities, discuss how we can respect diversity and understand the different roles people can play in communities
