

TT Rockstars

Have you practised your Times Tables enough this week?

- Year 2 need to learn 2's, 5's and 10 times tables with division facts.
- Year 3 need to learn 2's, 5's, 10's, 3's, 4's and 8 times tables with division facts.
- Year 4 need to learn all times tables up to 12x12 with division facts.
- Year 5 and 6 need to revise their times tables on a regular basis to ensure they can apply them to other mathematical concepts.

MyMaths.co

MyMaths

MyMaths is a targeted, rewarding and captivating online learning resource, which is aligned to the new curriculum. Extra Mathematics practice at home can make all the difference to your child's progress and achievements.

Reading Eggs

Reading Eggs is a great online learning platform which allows children to earn eggs by reading different books. They can then use these eggs to buy clothes, furniture or pets for their online world. It is a great way to encourage reading.

Reading

Please read with your child as much as possible. Reading is essential for every subject in the curriculum. Year 3 can earn lots of rewards from reading this year. Please fill in their reading records when you can. They can also make a note of their own reading as they are now KS2.

Summer Term Learning Anglo-Saxons

Year 3

English

In English, this term we will be covering persuasive letter writing, poetry, as well as looking at myths and legends which date back to the Anglo-Saxon times.

Maths

In Maths, we will be continuing our fraction topic, by adding and subtracting fractions, then finding fractions of a number. The next topics we will be learning about are money and time. Finally, we will look at shape and statistics.

History

We will be exploring the topic of Anglo-Saxons and finding out about how they came to rule England. We will learn about how they lived their lives and the changes they made to Britain.

Geography

We will be learning about early settlements, linking with our history topic of Anglo-Saxons.

Science

In science, we will be focusing on understanding the structure and functions of plants, including roots, stems, leaves and flowers. They will also explore how plants grow, reproduce, and the basic needs they require to thrive, such as water, sunlight, and soil. The curriculum also covers plant life cycles and how different plants are adapted to their environments.

Art and Design

We will be developing our drawing skills, looking at the artist Gaudi to create our own Anglo-Saxon drawings.

Design & Technology

We will be making Anglo-Saxon settlement using different techniques such as weaving, sculpture and painting.

Music

We will be learning to read music so we can play the recorder. We will start by learning the A and B note.

Computing

We will be 'sorting databases' by creating yes or no options.

Physical Education

In the first half term, we will be focussing on athletics and rounder. Then in the second half term, we will focus on dance and cricket.
