

Year 6 Term 6 Curriculum Overview

Blean Primary School

Dear Parents and Carers,
Please have a look over our
class curriculum for this final
term of Year 6.

Learning Together to Enjoy and Achieve

English and Geography: We will begin the term by completing our Amazon Expedition and draw all the different pieces to a conclusion. As part of our wider learning about the Amazon Rainforest, we will also be exploring deforestation and sustainability, linking this to our local area of Blean Woods.

Maths: We will be using our measuring skills to create nets of 3d models. We will then learn about linear sequences and how we can find the nth term of a sequence. We will continually recap our calculation skills and will finish off by designing our own theme park.

Science: Our Science topic continues with Evolution and Inheritance. We will also be revising the scientific understanding of human lifecycles and reproduction linking with our PSHE work.

RE: We will look at the connections between beliefs and behaviour in different religions. We will explore the importance of the concepts of Ahimsa (to Hindus) and the Ummah (to Muslims).

PSHE: Our PSHE will have two strands: we will be discussing reproduction as part of our 'Changing Me' focus (more information to follow). We will also be looking at transition to Secondary School giving the pupils a chance to look at practicalities, challenges and responsibilities.

Computing:

The children will bring all of their prior learning together by using all of their coding skills to code and use a micro:bit. Their final project will be to create a step counter.

Spanish:

This term, the children will recap previously learnt vocabulary to create a short presentation about themselves. They will also apply their language detective skills to learn another language.

P.E. and Games:

PE will be on **Mondays** and **Fridays** this term, with both sessions being outside. We will be practising our athletics skills ready for Sports Day and developing more specific skills through playing both golf and rounders.

Drama, Art, Music, DT, Dance:

We will be combining all of these subjects in our year group production of 'Grossbusters'. As well as acting and singing, the children will be engaged in set design, prop-making, costume design and choreography. We know that we can rely on all parents and pupils to be supportive of our endeavours as the children will need to show all of our school values as they take on this exciting challenge.

Home Learning will be posted on Google Classroom on Thursdays to be completed and handed in on the following Tuesdays. In order to prepare for Year 7, we will also occasionally set additional home learning tasks due in at different times.

There are a number of events planned throughout this term. Please check the end of the weekly newsletter for dates. Further dates for your diary will be sent out where necessary.

Please be aware that Secondary Schools do not automatically inform us of successful appeals, transition days and visits: please let us know if your child will be attending a transition event at their next school.

Thank you,

The Year 6 Team.
