

## Year 2 Term 6 Curriculum Overview

## Blean Primary School

Dear Parents and Carers,  
Please have a look over our class curriculum for the coming term...

Learning Together to Enjoy and Achieve

**English:** The term will see us using Roald Dahl's 'Charlie and the Chocolate Factory' story as stimulus. Our learning will involve drama and creative writing. We will be writing persuasive letters, poems and writing our own factory stories. We will continue to rehearse spelling rules and patterns. Our reading journey will see us building up our reading stamina and enjoying the story 'Hotel Flamingo'.

**Maths:** We will be continuing to embed time and position and direction skills, alongside looking at the different ways in which statistics are presented. Alongside this, we will be continuing to count in steps of 2, 5 and 10.

**Science:** Our Science topic will link to our learning about 'Charlie and the Chocolate Factory'. We will be applying and consolidating our investigative skills, carrying out a range of investigations where we can apply our skills

**Topic:** Our learning will take us on a journey to Quex Park, factories of Kent and beyond. We will be learning about factories and the impact they can have on communities around them. We are going to form opinions on the positives and negatives of factories and pitch these opinions to Mr Bucket from Charlie and the Chocolate Factory.

### **Music:**

We will be looking at the key elements of music, including feeling the beat and discussing how the pitch of a song can be changed.

### **PSHE:**

We will be focusing on ourselves and how we change. We will also have a number of sessions and activities that focus on the transition into Year 3.

### **Art & DT:**

Our Art will be based on Yayoi Kusama, who is an inspirational Japanese contemporary artist who works mainly with sculpture and installation.

### **PE:**

We will be focusing on Rounders and Athletics in our Games lessons in preparation for Sports day.

Our PE days this term are **Tuesdays** and **Thursdays**

### **Computing:**

Children will begin to understand that sequences of commands have an outcome, and make predictions based on their learning. They will use and modify designs to create their own quiz questions in ScratchJr, and realise these designs using blocks of code.

### **Spanish**

We will be continuing to learn numbers and colours.

### **RE**

We will be focusing on how and why we celebrate special and sacred times. This will consolidate our learning and allow us to reflect on similarities and differences between religions.

**Home Learning** will be published on Google Classrooms each Thursday and should be completed and handed in on Tuesdays. Please continue to read and share books throughout the week.

**Date for the Diary: 9<sup>th</sup> July** - Year 2 Trip to Quex Park. More details to follow.

If you have any questions at all, please find us at the end of the day or contact us via the office.  
Thank you,  
**The Year 2 team.**
