

AUTUMN TERM

PE for Giraffes is Monday and Tuesday

Giraffes visit the library on Mondays, Elephants visit on Fridays

PE for Elephants is Monday and Wednesday

WELCOME HELLO! Hi!

Welcome to Key Stage One! We can't wait to get started and have lots of exciting things planned.

Please ensure all belongings are labelled. A member of staff will be available on the door every day if you need to pass on any messages or have any questions.

Name :

Science

We will be learning about the human body, with a focus on the five senses and how they help us explore the world. After that, we will look at autumnal seasonal change and then move onto materials and their properties.

English

We will begin by reading *The Wonder* and really focusing on our grammar skills, including word classes and will read, plan and write setting descriptions.

After half term, we will move on to *Little Red Riding Hood* with a focus on retelling stories and then look at an innovative version of the story with a brand new villain! We will then be creating our own characters and narratives.

World Cultures and Beliefs

We will begin by exploring 'What is the "Good News" Christians say Jesus brings?', learning about Jesus' teachings and how Christians try to follow them. After half term, we will consider 'Why does Christmas matter to Christians?', exploring the Christmas story and why the birth of Jesus is important within the Christian faith.

Maths

To kick-start the year, we will be developing our understanding of place value through representing, comparing and ordering numbers.

We will then move on to addition and subtraction using different methods to aid our calculations, as well as working systematically. Year 1s are encouraged to continue their use of Numbots, whilst children in Year 2 will be beginning to use TimesTable Rockstars.

Computing

We will be learning how to programme digital Beebots and input simple algorithms.

History

How am I making history?
We will look at our personal chronology and order events from our own timelines. We will look at how childhood has changed over time and will even create our own time capsules for future generations to open!

CHILDHOOD

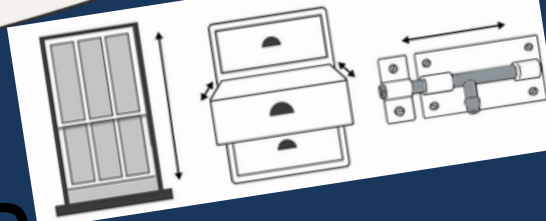

Special

PSHE

How can I help myself and others feel happy and safe?
We will think about what makes us and others special and ways in which we feel safe.

How do we spend time online?
We will think about balancing on and off screen activities as well as how we behave towards others online and what we can do if we feel worried by anything we encounter.

THIS IS A
SAFE
SPACE

This Is
Our
House

Through This Is Our House, we will explore what discrimination means and why it is important to include others, treat people fairly and make everyone feel welcome.

everyone's
welcome

Art

Our unit of work this term is Spirals. We will explore spirals in nature and the world around us, study the work of artist Molly Haslund, and experiment with line, shape and movement. We will then create our own spiral-inspired artwork using a range of different media and techniques.

PE

This term, we will develop our fundamental movement skills, with a focus on agility, coordination and balance.

During our sessions with our sports coaches, we will build our fitness, stamina and strength through a range of activities and challenges.

Product Design

We will explore mechanisms, focusing on how sliders and levers create movement. We will then plan, design and make our own slider game, before evaluating our finished product.

Geography

What is it like here?
We will explore different maps and learn about how and why they are used. We will map out our classrooms and playground.

Music

Our unit of work this term will focus on pulse, which forms the heartbeat of music. We will explore different rhythms and use our own simple graphic notation to create our own.
